TUESDAY, JANUARY 10.

No longer is the shortage of homes permitted to stay the boom in the marriage market. Less than a year ago it was said that hundreds of couples were deferring marriage because it was impossible to find quarters for rent. According to recent government statistics there have been a million marriages during the past ten months and the number is increasing steadily.

The fact that the country is short at least a million homes has been entirely ignored by the happy bridegrooms and brides. Not alone in the United States, but in many of the countries in Europe has the number of marriages increased enormously. Germany alone is lagging in this respect. In France and Italy the number is far above the normal record.

In the Bible story of the Ten Talents the fact is related that when the lord of the vineyard returned after a long journey and called his servants together for a reckoning there was one man to whom he had given one talent who returned to his master only the bare principal. He had not invested it in any way that would yield returns like some miserly people today, he had simply hidden the money where it benefited nobody—neither himself nor his master—nor the community at large. The lord of the vineyard was rightly only indignant and called the one unprofitable servant "wicked" and "lothful." His lordship demanded to know why the money had not been put to the exchangers in order that

the amount loaned might have been repaid with interest. Thus was proclaimed the principle upon which modern bank loans and discounts are based.

A FARMER ON THE BOARD.

The Observer is entirely in sympathy with the movement under way to bring about a membership on the Federal Reserve Board of a farmer. It would not regard that as class legislation, because the agricultural sector merits representation and the general of the country demands that a farmer should have active participation on the board. The law requires two banker members, but there are plenty of men in the South and West who are both bankers and farmers. There would be no difficulty in finding a competent man for the place. Recent developments have clearly indicated a drift away from the original purposes of the Federal Reserve System, and it is out of these developments that agitation has been created for agricultural membership on the board.

The Federal Reserve System as organized by the Wilson Administration under the Nation a service whose value is beyond estimation. Properly managed and in line with the original purposes, it is capable of rendering the country a continued service of like value, but its autocratic tendencies must be checked. Farmer representation on the board would exert a stabilizing influence that would quickly retrieve much of the lost popularity of the System—Charlotte Observer.

Of interest to many friends in Chester is the news that Miss Essie Walsh and Mrs. M. M. Brice will open a millinery establishment in the store room now occupied by the Edward L. Ayers Company, who have advised that they will discontinue the business here. Both Mrs. Brice and Miss Walsh are experienced milliners and have many friends in Chester who will be glad of the opportunity to patronize them.

PARDON GRANTED FOR YORK NEGRO

Emmanuel Daniels, Quilted Mutton on Champaign and is Rewarded for His Work.

Emmanuel ("Bud") Daniels, the York county negro convict who last week quitted a threatened mugging of 12 white and negro prisoners on the York county guard when James Robinson, the guard in charge of the men, had seen his job, was yesterday granted a full pardon by Governor Cooper yesterday morning. Daniels grabbed Guard Robinson's shotgun after the guard had been felled by the blow from the axe and covered the prisoners. As Daniels procured the gun, the negro, Reid, who hit Mr. Robinson, had the axe drawn back for another blow, and officers who arrived on the scene soon after the trouble broke out, the guard would have been butchered if Daniels had not intervened.

Daniels was sentenced to one year for forgery and had only a few more months to serve. He has been praised highly for his prompt action and in York for him, Daniels was a sum of over \$100 has been taken trusty and One Grier, also a trusty, ran for help while Daniels covered the convicts. Executive Clemency for Grier is also being agitated.

The petition from York bore the signatures of all the deputy officers. Senator John R. Harboe wrote the governor that this was the first time he had ever requested a pardon for any one, but he thought this negro certainly should be given clemency.

May Liquidate Hotel Company.

The following article is from The Rock Hill Record of yesterday.

At a recent called meeting of the City Investment Co., better known as the "New Hotel Company," there were not enough stockholders present and proxies represented to hold a meeting, so it was postponed for another date. It was held at 10 o'clock in the daytime instead of at night, and at that meeting it is hoped to be able to get enough of the stockholders present to transact business.

It was the opinion of a majority of those present at the recent meeting that the lot for which they paid \$25,000 should be sold, and the money received from the sale and the \$1,100 on hand should be returned to the stockholders, and the company be liquidated.

Next Meeting in Chester.

The quarterly meeting of District No. 4 Nurses association was held last Thursday afternoon in Rock Hill, with Mrs. David Lytle, as hostess. A short business session was held, the chief feature of which was the election of officers for the ensuing year. All present officers were unanimously re-elected.

An interesting program was carried out, as follows: Reading article on "Public Health," by Miss Carol Cylmonson, of Chester; paper on "General Nursing," by Mrs. Sigman, of Chester; "reading," "Sub-Nurses, Why Not Sub Doctors?" by Miss Alice Beckett, Rock Hill; paper on "Bacteriology," by Dr. Henry, of Chester.

Following the program was an enjoyable social meeting, during which the hostess served a dainty menu. The next members were in attendance. The next quarterly meeting will be held in Chester.

State Laws Being Codified.

One of the most important features connected with the approaching general assembly will be adoption of the 1925 code of laws. The code is being prepared by a special commission composed of the regular code commissioner and two assistants appointed by the last legislature. The commissioner is J. C. McLeure of Chester, and the collaborators are W. W. Lewis and Silas Wetmore. The new code will be in three volumes and will include the statutes of the 1921 session of the legislature. All laws, clauses and statutes that have been repealed, "adjudged unconstitutional" or become obsolete will be omitted.

GONE ARE THOSE DAYS.

The Lenox News-Topic prints a picture giving an interior view of the chair car that was at one time operated on the Carolina & North Western Railroad between Chester and Lenox, and wants to know "what has become of the good service given by this road." The service it speaks of was of public enjoyment about 20 years ago, and those were the de luxe days of the little old narrow gauge, which was later converted into a standard gauge and its course diverted from the ridge route to a riverbank line. The chair car at that time knew no automobile competition. There were no good roads in those days and the auto route was undreamed of. However, with arrival of this competitive combination began the emptying process for the chair car, and the daily bundling out and on at Lincolnton was long ago a thing of the past. But what is one chair car to a thousand automobiles for Lenox, anyway?—Charlotte Observer.

MOORE SUSTAINS PLAINTIFF PLEA

Rodney to Be Receiver in Lancaster Concern.

Lancaster, Jan. 7.—Judge Ernest Moore today filed two decrees in the case of the Catawba Fertilizer company, plaintiff, against the Lancaster Mercantile company, defendant, and the petition of C. D. Jones that he be allowed to intervene and be made a party to said action.

Judge Moore holds that Mr. Jones has no right to intervene in the pending suit and that he is not a necessary party thereto.

He holds in his other decree that a receiver is necessary because of the insolvency of the Lancaster Mercantile company, and appointed John T. Roddy of Rock Hill as receiver and Charles W. F. Spencer of Rock Hill receiver in the receivership until Mr. Roddy qualifies as receiver.

The Lancaster Mercantile company will be operated under the management of Leroy Springs and John T. Stevins.

The decrees of Judge Moore today sustain the position taken by the Catawba Fertilizer company and the Lancaster Mercantile company and deny the position taken by Mr. Jones.

REFUSE TO ISSUE TIRE GUARANTEES

Sixty-Six Manufacturers Enter Agreement on Mileage.

Sixty-six tire manufacturers supplying nation-wide trade have entered into an agreement to refuse in the future to give mileage guarantees on their tires and to warrant them in the future only against defective material and workmanship, according to information made public.

"It has been decided, in the first place," this announcement reads, "to absolutely eschew all mileage guarantees. Such a guarantee was obviously illogical because no manufacturer could possibly foretell how far any tire would run, for the simple reason that he could not foresee what conditions it would be run under, or what sort of roads it would travel over. Instead a standard warranty will be used by each manufacturer. This warranty obviously goes as far as any tire manufacturer can go. All he can do is to guarantee his product against faulty material or workmanship."

"The order states that it is explained, as provided for tire users who find their tires defective and these forms, filled out, must accompany the supposed faulty tire which will be inspected at the factory.

"The Best Hot Weather Tonic: GROWTH FOSTERING CHESTNUT contains the blood, builds up the whole system and will surely give strength and vitality you so need and for whom, direct of the best manufacturer, Inc.

ORANGEBURG FAVORS PROPOSED MEASURE

Resolution Adopted Commending Legislature Recent Suggestions. Orangeburg, Jan. 7.—A meeting of the taxpayers of Orangeburg county was held at the court house today with practically every section of the county represented. Col. James H. Clardy was elected chairman and Fred Wannamaker was chosen secretary. The program of the conference of taxpayers of the month

state, held recently at Columbia, was thoroughly discussed and was unanimously adopted.

Resolutions to the effect that it was the sense of this meeting that rigid economy in the conduct of both the state and county affairs be practiced and that by rigid economy the reduction of salaries of other officers and the discontinuance of such appropriations as are not absolutely essential to the proper conduct of the county and state government be adopted.

Prices Lowest in History of Ford Motor Co.

Today, with many commodities still priced above a normal basis, you can buy a Ford car for less money than ever before in the history of the Ford Motor Company.

The Ford Sedan at \$660, equipped with electric starter, demountable rims, extra rim and non-skid tires all around, is without doubt the greatest value ever offered in a motor car.

And you get the same quality, dependability and economy for which Ford cars are noted—with all the comforts and conveniences that go along with an enclosed job.

Let us have your order now for reasonably prompt delivery. Terms if desired.

Choice Cuts —and Others

A few weeks ago a newspaper man visited one of the wholesale markets of Swift & Company. He wanted to see a retailer buy a loin of beef and then watch the retailer sell the porterhouse and sirloin steaks from it over his counter. He thought this would make a good story.

The head of the market took the reporter into the "cooler" where he showed him a high class wooden shaver he marked off the loin and said, "That would cost a retailer just 40 cents a pound, but it's only 8 per cent of the weight of the whole side."

"This piece, (and he marked off about one-fourth of the carcass) is the chuck and I'll sell it at wholesale for 7 cents a pound. Please remember, this is one of our best sides of beef. We also have beef which sells for half as much."

This wide variation in the price of various cuts from the same side of beef is caused largely by demand from the tender cuts. The others are, of course, just as wholesome.

It seems as though more people than ever are demanding choice cuts, and their demand sets the price. If few people ask for the forequarter cuts, the price of forequarters will automatically drop to a figure low enough to induce people to buy because of cheapness.

Even though certain cuts sell for relatively high prices, other cuts, due to lack of demand, sell so low that our profit from all sources over a period of five years averaged only a fraction of one per cent.

It is competition between consumers for the choice cuts that keeps prices for those cuts relatively high; an equalizing demand for all parts of the carcass would benefit producer, packer, retailer and consumer.

Our average wholesale selling price of all products has fallen about 40 per cent since September 1920.

Swift & Company, U. S. A.

You Cannot See Public Opinion

You can not see the Law of Gravitation, yet it controls every action of your life. You can not see Public Opinion, but you are influenced by its force every hour of the day.

The man who does not advertise realizes the might of Public Opinion in politics, war, ethics, religion, but he fails to apply this force to his business.

Yet Public Opinion is so real a thing that we talk of 'moulding' it as though it had three dimensions like a cake of soap. Advertising is moulding Public Opinion to a favorable view of your business.

Public Opinion is as potent a force in the business world as it is in the moral world. The organized application of it to business is new because the multiple printed page and swift transportation are new.

In your line of business there are or will be firms that will continually reap the rewards of favorable Public Opinion.
